

# Great ideas for bachelor party

You can stay in the nature for a weekend if you rent a cabin in the middle of the wood. You can create a heating can, maybe with an old Coca Cola can with an old piece of cloth which you will put on the can.

If also you do the party in the summer you can learn to surf with a surf teacher. It will be very funny try to not fall between the waves. You can do this in the Canary Islands.

If you like sports you can go to see a Monster Track race, and see all the falls of the cars, it will be very funny! For a present there is a fantastic Monster Track tie!

If you don't like the race but you love sports you can try the paintball and colour all the participants with all the protections.
